The Winnipeg police stopped the boxing bout between Watts and Kelly.

The Winnipeg poultry and pet stock show opens this morning.

Several important judgments were delivered in the court this morning.

First-class and second-class have been matched to fight in May.

The Marquis of Dufferin's funeral was held at Chateaubey.

Dr. Annatli Rosen is once more at work.

There is a milk famine in Montreal. Count Tolstoi is weaker.

LOCAL.

—W. R. Hull, of Calgary, came in on Saturday.

—Nels Polson was fined \$2 and costs for drunkenness.

—Mr. and Mrs. Hobson have returned from England.

—Dr. A. H. Goodwin expects to be back to town Feb. 24th.

—Mrs. Descazes came up from Lac St. Anne with Mr. Thos. Taylor.

—P. Gunn, Hudson's Bay Company's agent, Lac St. Anne, is here on business.

—R. J. Manson has purchased 2,000 acres of land from McDougall & Secord.

—Kenneth Blatchford returned Friday night from a trip to Montreal and other eastern points.

—A sidewalk has been built on McDougall street, from Jasper avenue to the Grand View Hotel.

—There is a slight improvement in the condition of Bishop Grandin, there are still hopes of his recovery.

—This morning the engine ran off the track near the round house, the train had not pulled out at 10 a. m.

—In the bonspiel games, Winnipeg, McArthur, beat Laurier, Edmonton, in competition for New York Life challenge.

—John Owens has built a corral one block north of the Hudson's Bay stores, where he will keep a stock of horses on hand for sale.

—The property west of the Queen's Hotel now a Chinese laundry and that occupied by D. Collins has been purchased by Mr. Hetu.

—A. Cristall already has a large quantity of material on the ground for the store he is building on Jasper avenue, opposite the Imperial Bank.

—His Grace the Archbishop Langevin and the Rev. Father Lestung, who came up to visit Bishop Grandin, returned from St. Albert to-day and will probably go south by train to-morrow.

—J. E. Laurencelle, formerly manager of the Jacques Cartier Bank here, has opened an office, next door to the Victoria Hotel, where he will conduct business as private banker, financial agent and broker.

—At the police court this morning W. H. Hensel was fined \$1 and costs for assaulting an old lady named Mrs. Fortier. Broderick, who is out on \$100 bail on a former charge, was with him, but is missing.

—Calgary, Alberta, Feb. 11.—Mr. William Diamond, the clothier, left for the east on Sunday morning to secure a stock of goods for his Edmonton branch. He was accompanied by the manager of the Edmonton branch, which latter will be known as the Edmonton Clothing Store.

—Mr. Hetu is erecting a large addition on the east side of the Queen's Hotel. The building will be 30x50, 3 stories high. Mr. Hetu finds, that owing to largely increased traffic, he could not possibly provide sufficient accommodation for his patrons when spring opens.

—Calgary Herald; Jesse Knight, who is erecting a sugar beet factory at Raymond, in Southern Alberta, expects to receive shipments of lumber shortly which will total 1,000,000 feet to be used in erecting sheds for the beets. The factory will be ready for operation by next fall.

—The performance of the Alabama Warblers, at Robertson's Hall on Saturday night, was well attended. Prof. McKanlass gave a good exhibition of his skill as a violinist. The programme consisted of coon songs, clog dancing and cake walks intermixed with the usual jokes and pleasantries.

EDMONTON BULLETIN FEB. 17th, 1902

A HOT CAMPAIGN.

The following from the Calgary Herald indicates a warm time in Lisgar.

Winnipeg, Feb. 11.—The campaign in Lisgar has developed into one of the most interesting in the history of the province. Mr. Toombs held a crowded meeting last night at Morden and his chances for election are apparently improving. Among the gentlemen speaking in his favor are Premier Roblin, Hon. B. Rogers, Attorney General Campbell, J. H. Ruddle, M. P. P., Nat. Boyd, M. P. P., N. Diche, of Carberry, and W. Sanford Evans, editor of the Winnipeg Telegram. On Mr. Stewart's side are Sifton, Greenway, V. Winkler, M. P. P., and J. D. Cameron. A big meeting was held by Mr. Stewart at Carman last night with Richardson present. The chief issues discussed were free manufactured articles for the west, especially farm implements; lower tariff; grain transportation; and the grain act, C. P. R. land taxation, and the C. N. R. railway deal. The only speakers on Mr. Richardson's side are James Fisher, Alex. MacDonald, J. W. Pattee, M. P., and Wm. Scott. At present the general opinion is that Mr. Richardson will have a very hard fight with the odds against him.

PAPER DUTY REDUCED.

Ottawa, Feb. 11.—For the first time the provisions of the customs act of 1897 have been successfully invoked. It will be remembered that last session a deputation of members of the Canadian Press association waited upon the government and made a suggestion that there existed amongst Canadian paper manufacturers an association or combine for the purpose of unduly enhancing the price of news print, the class of paper on which newspapers are printed. It was urged that the government should take advantage of section eighteen of the customs duty act of 1897 and to appoint a commissioner for the purpose of having these charges investigated on duty. Judge Henri Taschereau, of Montreal, was appointed commissioner on April 25 last to enquire into the matter and a full investigation was held. The commissioner's report was dated November 15th last, and after duly considering it the government feeling that the report sustains the complaint of the press association, has concluded to invoke the power given to it under the act. Accordingly an order in council was approved by His Excellency to-day to the following effect:

"Customs duty on news printing paper, in sheets and rolls including all printing paper valued at not more than two and a quarter cents per pound, shall be reduced from twenty-five per cent to fifteen per cent ad valorem."

Judge Taschereau, in his report says he started out to inquire, first whether the alleged association or combine or agreement does exist in Canada. Second, if so, whether it is such as to unduly enhance the price of printing and newspapers, or in any other way to unduly promote the advantage of the manufacturers, or dealers, at the expense of the consumers. Commissioner Taschereau declares that such an agreement does exist.

DEATH OF MAJOR OGILVIE.

Details of the recent death of Major Ogilvie in South Africa are contained in a letter received by Col. MacDonald, chief superintendent of militia stores, from Col. Steele, dated December 29th. The writer says, in the course of a personal note;

"Poor Ogilvie was killed in action on the 19th of December. I had an order to clear the country north of the Magababurg from the meridian of Rustenburg to the railway. I had Ogilvie with me and a squadron of mounted men consisting of S. A. C. and yeomanry. A great deal of tracking had been done with success and the final move was a night march from Kilburn to Kilgarragh where I took the enemy by surprise. Ogilvie charged, pistol in hand, the front of the enemy's position, and was mortally wounded by their first discharge. He died next day as he was being admitted into hospital at Reilfontein, about fifteen miles west of Pretoria. The bullet which caused his death was a Martini Henry which passed through the horse's head and into Ogilvie's body, lodging in his thigh. It was impossible for him to live. He was a most useful officer and a great favorite with us all. He had just been promoted to be inspecting major of a division staff. He had a fine career before him and we all greatly deplore his loss. His death will be a severe blow to his family. In the camp I captured a number of Boers, three hundred head of cattle and a great number of mules, horses and wagons." Col. Steele

states that Lieut. Lawless of Ottawa is no longer with the South African constabulary, but is now with the Scots Greys.

THE WAR.

Cape Town, Feb. 9.—At a meeting of citizens held here last night, at which several thousand were present, a resolution was passed refuting the continental calumnies of the British troops. Official Secretary Graham delivered a strong speech.

A resolution was also adopted supporting the attitude of the Imperial government in regard to the war. These resolutions represent the united local feeling throughout the Cape Colony.

London, Feb. 9.—A despatch to a news agency from Brussels says: "It is understood here that the Boer delegates have decided to submit to the conditions laid down in Lord Lansdowne's communication to the Dutch government, and are preparing a communication to the British government asking permission to visit South Africa and settling forth the object of the proposed visit. It is expected that the request will reach England next week."

Mr. Chamberlain's announcement in the House of Commons on Thursday that the substance of the correspondence with the Dutch government would be communicated through Lord Kitchener to the Boer generals puts an end to the incident which began with Dr. Kuiper's visit.

If the Boers have ever hoped for foreign intervention they cannot well hope for it any more. In these circumstances it is, of course, possible that Generals Botha, De Wet, Delarey, with or without concurrence of Mr. Schalk-burger and Mr. Steyn, may give up the struggle in despair, but their course will depend upon military considerations, with which the civilian, even if he had the requisite knowledge, is incompetent to deal.

Threats have no effect upon the mass of Englishmen. Abuse by German newspapers only strengthen their determination to go on fighting. At the idea of foreign intervention they laugh.

If the Boers or any other foreigners suppose that Great Britain is unable or unwilling to carry on the war they are very much mistaken.

There is a peace party here, but it does not rest upon any disbelief in the material resources of the British Empire. Its cardinal principle is that reasonable men on both sides would agree upon a peace which would make another war in South Africa a practical impossibility.

C. P. R. STATION IN WINNIPEG.

Montreal, Feb. 11.—The Canadian Pacific railway has decided to erect a new station at Winnipeg. Plans have been in readiness for some time, and have been discussed by the president. The plans call not only for a modern station, but a handsome hotel as well, although it is possible that the erection of the hotel may be delayed somewhat, owing to the action of the civic authorities. The outlay will amount to about two million dollars before both structures are completed. This will include the hotel and furnishings.

DIED IN SOUTH AFRICA.

Ottawa, Feb. 9.—Three more young Canadians have offered up their lives in the cause of the empire. His Excellency was advised to-day by the casualty department at Cape Town, of the deaths of Theo Trickey and W. E. Hodgkinson, at Bloemfontein and R. J. Stobo at Heidelberg. All were members of the South African Constabulary. Trickey came from Beulah, Man., Hodgkinson from Kinross, Ont., and Stobo from Scarborough, Ont. Enteric fever was the cause of death in each case.

MEASLES AT PRINCE ALBERT.

Prince Albert, Feb. 8.—Nearly every family in town have a case of measles on hand. There has been no quarantine established as the medical health officer and the town council say that it is better that the children should have the measles and get done with it.

ITALIAN MASONRY.

London, Feb. 11.—A special despatch received here to-day from Rome says that a meeting of representatives of Italian lodges of Free Masons it was decided that Italian Free Masonry should cease to be a secret society.

THE KING VS. BULLOCK.

(Continued from last issue.)

Ray Bullock, a boy, sworn; Brother of prisoner. Found the black cap about 30 yards from where the body was found, in the direction of Phillip's house, in a big clump of trees. Bud came home Friday night and went away Monday morning. Father came back on the Monday and brought an autoharp. There was a spade on the farm.

The witness here described the relative position of house and barn, and to the fence and where the body was found.

Ploughing was going on at the farm when my brother came. Two teams were ploughing. My father and brother Fred were driving. Brother Bud was in the house nearly all the time. I was in the house most of the time. When my brother Bud came out in the field did not go with him. Cannot remember if I was in the house all the time my brother was out. Had two dogs at our place. The night my brother Bud came home did not hear my noise.

Cross examined by H. H. Robertson: From where they were ploughing, the bluff where the body was found, could be seen. From where they were ploughing the barn door could be seen. They were ploughing on different laps. Sometimes when father was going north Bud would be coming south. From the window could distinctly see the place where the body was found. Found an axe, with initials burnt in the handle, about 45 yards from where the cap was found, and about 30 yards from where the body was found. Cannot remember if it was before or after the inquest. I wore the cap while I was milking cows. While milking would put my hand on the cap and sometimes touch the peak. Am in the habit of wetting my hands when milking. Did not clean the cap before I wore it. It was not covered with mud or dirt. From the house, to where the body was found, the ground rises. There is an open space between the bluff where the body was found and the trail to the south. I kind of think it was after the inquest when I found the axe.

Fred J. Bullock, sworn; Am brother of the accused. Was driving in spring at Asker. Remember making a discovery of the body of a man on a Sunday in June. On the land of Mr. Phillip's about 75 to 100 yards to the north line of the fence. There is a trail on the north side of the fence about 20 or 25 steps from it. The trail would be about half way between the body and the fence. Between trail and fence the ground is open. There were trees about 2 yards from the body. When the trees are bare, leaves can see the grave from the trail. Discovered the grave while looking for turkey nests. The ground in the bluff is a small basin. From the buildings, to where the body was found, the ground rises and then falls beyond. On finding the body reported the fact to my father. Found a bundle of papers. Guess that is the one. Found them along the trail beside the clump of bushes. Turned them over to each other. Found a name on the paper. Thought it was Stoner. Remember my brother Bud visiting my place last spring. Do not remember the date of the visit. That it was in the last of April, on a Friday. He came at night. Did not expect him. Came after a dark moon. Bed. We usually go to bed from 8 to 10 o'clock. He came alone. Father and mother, myself and wife with baby slept downstairs. Did not hear the dogs make any noise. It was not a very dark night. Expect we went to bed about dark. My wife awakened me. Heard the dog. I got up and went outside. Went round the east corner of the house and called the dogs. Heard a man call from the north. He wanted to know if Bullock lived there. He then came up and said hello Fred. Think it was between 10 and 12 o'clock. My mother woke up. Said he was hungry, he had some supper. Do not know if it was that night or the next day he told us where he came from. The next day we were ploughing. Said he came from Aspen, where he was working, had walked part of the way out and ridden part of the way with the postmaster. That another man rode with him and the postmaster. Did not know where the other man was. Then my mother went to some lake, but that he did not know the name of the lake or of the man to whom he was going. The dogs generally bark when anyone comes around. Commenced ploughing on the east side of the property. The Saturday he was there we were ploughing a three acre strip. On the east, about opposite to where the body was found. While we were ploughing Bud was out in the field quite a while. When he came in he was in the house. Had a spade on the property. Did not see any presents given to the members of the family, by my brother. Was going to look at my brother on the Sunday. Went to Ramsay's store. We both bought goods. I paid for what I bought and he paid for his. He had a \$9 gold piece, but they could not make change. Got the money back from him before he left. Saw my brother had a revolver. Did not see it. He left on Monday morning with my father. He said he was going to some place in British Columbia. He returned the same day. Brought a musical instrument similar to the one on the table. When I found the papers they were wet. Think the letter had been altered since I had the papers. We went on the farm about the 1st April and had been there 3 or 4 weeks before my brother came. He was in the bluff where the body was found, but not right through it. On the Sunday Tate, my brother, the little fellow and myself walked to look at the country. We carried a gun. Tate and I carried the guns. We all left the house together. Did not go to the bluff where the body was found. Saw a black cap my brother Ray found. Recognize that cap by the tear. Know my brother Ray found an axe. An ordinary axe. The eye had been broken and riveted. There were letters on the handle. I think N. O.

At 12:30 witness was still on the stand. Fred Bullock continued: About the time of my brother's visit saw a man driving a team off the trail and about the bluff. On the west side of our field. He turned in between the two clumps of trees. A few minutes later saw him on the other side of the little lake, north of the bluff. Saw him about an hour when he was west of our place driving south. Had a light wagon, he was alone. Could not say if he had anything in the wagon. The eye of the ploughing, while my brother was home, is about 90 rods long. My brother did not bring any baggage with him. The

accused left the comb at the house. My brother had a watch. An Elgin open case. In appearance it looked like the exhibit.

Cross examined by H. H. Robertson: Am familiar with the locality around my place.

The witness here drew plan of position of buildings and ploughed land with regard to the bluff.

In a direct line from the house to the copple, where the body was found, there is no bush. The centre of the bluff is a little lower than the outside. The body was in the centre of the bluff. When I first saw my brother the night he arrived he was outside the fence and west of the house. When I spoke to him he climbed the fence. He was coming eastward from the west. In my evidence before the coroner made a statement as regards the man and team seen driving about off the trail. When my brother first came in the house he said he was hungry. I told my mother to get up and see who was there. He had some supper and slept upstairs. Was with a ladder. Think Ray slept with him. The house is about 14x20. Have only the one room downstairs. I sleep in the northwest corner. At night the beds are curtained off from the rest of the room. Father has the southwest corner. The ladder stands against the door when not in use. I generally get up first. The upstairs is floored with shiplap. Charles Tate had a farm a couple of miles south of the house with him. One day we went shooting with the first time Tate visited us after we moved on the place. My father was there when Tate and I came back. Tate proposed the shooting trip. I got up first the morning after Bud arrived, he came down after. He always had meals in the house with us. Saw him off and on all day. Went ploughing after breakfast. Left Bud at the house. Think he came out to me both morning and afternoon. He walked around with me two or three rounds. When he left me think he went to the house. When I went in to dinner Bud was in the house. Had dinner and started out to the field leaving Bud in the house. Think he came out morning and afternoon both. Went in to supper about 6 o'clock. Bud was there when I went in. After supper sat around the house and talked to Bud. Was with him until he went to bed. Saw him go to bed. General get up first at a little after 5 o'clock. Think I saw him come down. He had breakfast with us. He might have gone out before breakfast. Would not have had time to be away long. After breakfast hitched up the team. Bud was there when I drove up. Drove to Ramsay's store and returned about dinner time. I unhitched the team and left Bud at the house. Until we went out hunting Bud was there all the time. Bud returned to the house with me. Had supper together. Think he was in my presence until bed time. Tate was there all the afternoon, but cannot say if he had supper there. I got up first next morning. Bud came down after. This Monday morning, Bud had made up his mind to leave. We talked about his leaving the night before. Bud left with my father before 7 o'clock. Ray lives 9 or 10 miles from my place. Saw my father and brother building a fence last spring. Saw them driving the posts, they were about 2 feet. The fence was built before we began ploughing. Found the papers on the north side of the grave. It was pretty wet last spring. After Bud's visit there was considerable rain. The papers were folded exactly as they are now. My brothers Harry and Blanchard went to British Columbia. Before they left they had been working at home. Harry had not worked out. Blanchard had not worked out. They suddenly made up their mind to leave. Had not decided where they were going. When Bud visited home it was his custom to make short visits. In the spring of the year. Generally go to bed right after supper. After seeing the body would say it was that of a man about 30 years of age.

By the crown: Had an uncle Frank Haines, he is dead, his post office was Michigan City, Mich. Never knew of his being in this country, or of his living in Calgary.

Robert Robertson, M. D., sworn: Am a medical practitioner living at Wetaskiwin. Assisted at an autopsy on a body at Wetaskiwin last spring. Dr. Guthrie was with me. Was a sergeant. Const. Mott, another member of the force and Mr. Smith, were present at the examination. The body was examined by Mr. Smith for the purpose of identification. He looked mostly at the contour of the face and the teeth. The face was all discolored and swollen the left eye quite gone. Nose out of shape, a gap in the one side of upper lip and a gap in the one side of the lower lip. That part across the cheek bone and the teeth were well preserved. The contour of the forehead was in fair preservation. Do not remember if there was any hair on the head. Saw some hair gathered up. Front teeth were large and heavier than usual, the nose across the front was very square. Between the eyebrows and the nose there was quite a gap, the eye teeth were heavier than usual. The appearance of the teeth was marked and unusual. Think it would not be reasonable for anyone knowing the subject in life to identify it by these. All the teeth in view were sound. There was no sign of dental work. The body measured with a two foot rule. The feet had boots on. The feet of the dead man might be extended. Remember when the measure was taken it was made to or from where the tail of the heel would be if the foot was in the ground. The height was 5 feet 7 inches. No cause after death wound in my opinion, make any appreciable difference in the length of the body. Would not say if the measurement was taken wrongly if the length was made 5 feet 10 1/2 inches. There is no doubt about that. The autopsy was confined solely to the head to get at the body the end of the coffin was knocked out and the side swung out. Found wound just back of the lobe. Just one external wound. There was quite a lot of decomposition. Dr. Guthrie probed the wound. Then removed the skull cap. The membrane of the brain was intact. A bullet was extracted. We searched for a second bullet. Did not find it. There was a hole in the bony portion of the skull. The hole was about 3/4 of an inch long and 5/8 of an inch wide, it looked as if it had been two holes and the intermediate portion gone. Should judge that the two holes would have been an eighth of an inch apart. There was a place, between the top of the head and the eye, quite gone. I put this down to decomposition. This I think was the eye which was wanting. The body was buried. Since the preliminary the body was again exhumed. The skull and several joints of the neck were removed. Did not find

(Continued on page 5.)

FALL WHEAT IN ALBERTA.

Farmer's Advocate: Thinking some of the readers of the "Farmer's Advocate" would like to hear of the success of fall wheat growing in Southern Alberta, and as it has been mentioned several times in the "Advocate," I contribute the following, that the great success of the fall wheat crop may be better known and understood:

Having lived some thirty years in one of the best wheat countries in Ontario, and fall wheat being one of our main crops, I have had a good deal of experience in growing and cultivating this important cereal. I came to the Fincher Creek district with the expressed intention of seeing for myself what success fall wheat growers were meeting with, and after having seen the crops of 1900 and 1901 threshed, I am pleased to state I never saw such splendid crops, yielding from 40 to 60 bushels of fine plump grain per acre, and under what we in Ontario would call very poor cultivation. One piece, containing six acres, I saw with particular interest, as it was situated in one of the most exposed places in the district, with no shelter except a barb wire fence.

The land was broken in June, 1900, and wheat was sown in the last week of same year, and was very poorly cultivated, but it yielded 47 bushels of fine wheat per acre.

Had this piece of land been broken the year before and backed, the yield would have been much heavier.

At the present time of writing, January 16th, many fine pieces of wheat can be seen as fresh and green as the same crop would be in Ontario in November, although it has not had a particle of snow to protect it; the climate and soil being admirably adapted to the growth of the seed, and leaving not the wheat lying over, which are the main causes of failure in Ontario. I might add that fall wheat has been grown for eight or nine years in succession by one party without a single failure, and at no distant day the Fincher Creek district will be as noted for its millions of bushels of fall wheat as it has been in the past for its large production of prime beef cattle.

Fincher Creek, Alta. FARMER.

THE VOICE OF THE EMPIRE.

The Scotsman: He would be a cold-blooded man who could resist Mr. Chamberlain's speech without a thrill of pride and enthusiasm. There is probably not a pro-Brit in the country who does not long to read it without a pang of rage. Mr. Chamberlain, of all our public men, has the best blow in him, and his strokes fall straight and sure. He is the voice of our country at home and abroad. It was said of him long ago that he says what he means and means what he says. What still better may be said of him. He says what the British people mean. He puts in ringing sentences what the nation feels. The fastidious and the finical and the lovers of smooth-tongued hypocrites may cant and carp at his plain speech, but the true word goes home and the true heart responds to it.

ACCIDENT ON THE C. P. R.

Calgary Alberta: The east bound train which left Calgary on Saturday morning was pitched into the ditch near Swift Current. The baggage man was injured but not very seriously. One passenger car remained on the track and the passengers were taken on to Swift Current where another car was sent and an additional car also secured at Moose Jaw. The train from the east was delayed by the accident and did not arrive in Calgary until 8:30 Sunday morning.

THE WAR.

London, Feb. 10.-A report received today from Lord Kitchener at Pretoria shows last week to have been the liveliest week with the heaviest losses on both sides for several months past. Lord Kitchener gives the British a total of 10,000 killed, 17 wounded, 57 surrendered and 574 taken prisoners. The British captured 400 rifles, one pom-pom and the usual gear of munition and live stock.

THE KING VS. BULLOCK.

(Continued from page 4.)

bullet. The face was completely gone. The teeth had fallen out. By the wisdom teeth could tell the age of the man. They generally are cut from 18 to 23. The upper teeth had not come through the gum. The lower ones had just begun to show. Thought he was in the vicinity of 21 years of age.

The skull produced in court and shown to the jury.

In my opinion a body buried in the ground in such a manner as the one found, and left until June, would be as much decomposed as when it was examined in August.

(Some medical evidence as to decomposition, now given.)

A body lightly covered with earth after 48 days would, in my opinion, be changed and swollen through decomposition. If a body had been buried in water I would still, at that time, have expected to find swelling and distension from decomposition. Think the features on the 19th August were sufficiently preserved to enable anyone, who had known the subject in life, to recognize it.

Court adjourned until 7:30.

Cross examined by Mr. Brown. Said that when he examined the body on 19th Aug. the contour of the face was in such a state as to be recognizable by anyone acquainted with the man in life. The cheeks were very prominent and unswollen. The type of face was out of the ordinary. Have studied comparative anatomy. Never found that high cheek bones was a characteristic of the people of this continent. A certain percentage of the people coming from Eastern Canada have high cheek bones. Admit that the native races of this continent have prominent cheek bones.

The forehead was high and square. The face was strong. Though it is not unusual to see a strong broad face. From the features it would be difficult to identify. The skull exhibit is not an unusual type. The general characteristics of the teeth are unusual. Would not expect to find a man with a strong square face and painted teeth. Would expect to find that kind of teeth in that type of face. There is nothing very special in the spaces between the teeth. Have not made the teeth a special study. Have not had any special experience with the ordinary medical man.

Would be safe in saying have examined one hundred subjects in the hospital. Arrived at my opinion of the age by the teeth. There is a way of determining the age by the joints. Never heard that the angle of the jaw becomes more acute as age advances. The sutures in the skull are not obliterated in the exhibit. After 19 the skull generally becomes united. I pin my opinion on the wisdom teeth. From 90 to 95 per cent of cases they appear from 18 to 23.

Taylor's medical jurisprudence is a standard work.

Mr. Brown: Taylor says that the wisdom teeth appear sometimes at 18 but does not until much later in life!

Mr. Robertson: Would not go against what Taylor says.

Do not know if the wisdom teeth are the first to decay. The clavicle was fully ossified, I mean both ends. Only examined it casually. Did not examine it to see if it was fully ossified. By that the bones of the skull are ossified up to 30 any way. From that and the wisdom teeth would say the man was about 21. That is the only and sole reason why I give my opinion that the age is about 21. Made the examination on the 19th August.

The decomposition that I saw on the 19th August was what I would expect to find in a body dead about 108 or 119 days.

Mr. Brown: Sergeant, Hetherington says when the body was taken up at the time of the inquest it was quite rigid. How would you explain that?

Mr. Robertson: "Rigor mortis" lasts according to the conditions, sometimes it starts instantly. Ordinarily the longest period before "rigor mortis" ceases would be a few days. If a man was frozen the body would remain stiff a long time. If a body buried on the 26th April and still rigid on the 19th June, would say that it still had not set in. Decomposition does not set in before "rigor mortis" sets in. Rigor mortis would not last for five weeks. I would like to see the stiffness spoken of by Sergeant Hetherington. When the body was measured it was measured along the back.

By the crown: From distention and other causes, together with the fact that the clothes were on the body, a stiffness might be caused that would make a layman call it rigidity.

Court adjourned until Saturday morning 10 a.m.

Dr. E. A. Braithwaite, sworn: Am medical practitioner residing in Edmonton. Am medical officer for the N. W. M. P., also acted as such for the South African contingents. In connection with the police have had experience in taking measurements of men. Received instructions from Supt. Constable of N. W. M. P., to proceed to Wetaskiwin, in order to conduct an autopsy on the body of a man buried in Wetaskiwin cemetery on Aug. 19th. Dr. Robertson, of Wetaskiwin, assisted. Sergeant Hetherington, Corp. Munson, Const. Mott, and Mr. James Smith were also present. Outside the surgical instruments, had a hammer, and saw, a two foot rule, and a pair of

compasses. The coffin was in the grave unopened. The lid was opened, the end and one of the sides was knocked out. When the lid was taken off the coffin, Mr. Smith examined the body. He looked at the contour of the face and wanted to examine the teeth accurately. I exposed the teeth for his inspection. I examined the teeth. The two front teeth of the upper jaw were very square, there was a gap between these and the next ones in either side, they appeared to slope away at an outward angle. This I think was peculiar. Think it would be reasonable to suppose that anyone, who had known the subject in life time, should recognize it by these indications. There were no signs of dental work. The face was much swollen, the left eye was gone, there was a slight gap in each corner of the mouth; one in the upper the other in the lower. The nose was flattened in. Might have been possible for a person, who had known the deceased very well, to have recognized him by the general appearance of the head and face. Saw Mr. Smith examine the clothes and saw him look at, and take, a sample of the hair. Remember his looking across the cheek bones and the jaw. All the face was equally swollen. Measured the length of the body with a two foot rule, along the side of the coffin. Will not swear I measured it myself. Placed a piece of board at right angles to the top of the head and moved the foot also at right angles to the body. Made the measurement 5 feet 7 inches. I superintended the measurement and saw the result and told Dr. Robertson what to put down. Would describe the body as a well built, massive frame. Confined the autopsy entirely to the head. Found a wound behind the left ear. Probed it. Probe went through almost to the other side, could not raise it; withdrew it and probed upwards. Probe went through to the top of the head at an angle of 45 degrees. Could not find any other external wound. Removed the skull cap. The membranes were apparently intact.

Explanation as to condition of the brain, here given.

Found a bullet which I gave to Hetherington at the grave. The exhibit is the one found. There was practically one large wound, as I had previously, while probing, broken down a piece of bone apparently from two holes. The one hole inside could not have been caused by a single bullet. I thought there had been two wounds, and looked for a second bullet. Failed to find it. The bullet I found would have caused death. From the cause taken by the bullet think that death would have been instantaneous. The shot must have been fired from the left and behind. A little piece of the bullet came off when it was washed. The decomposing of a body, which had gone through the process of freezing and subsequent thawing, would be more rapid. Think that the wisdom teeth of the upper jaw would have been at level of the gum; one of the lower ones appears to be at the same stage as the upper, the other one is a little ahead. Would say the age would be about 20 to 22. The skull is that of a young person.

Cross examined by Mr. Brown: Think an ordinary medical man could not be certain about the age by the teeth. This would require an expert.

By Mr. Brown: Whitlows and Ficker's medical jurisprudence, says that the "teeth like railway trains are only due when they arrive."

Cannot tell a man's age definitely from the teeth. Know of a case where the wisdom teeth did not appear until the age of 40. The teeth exhibited might be those of a man 18 years of age, or that of a man of 30. Would not like to say positively that the exhibit is the skull of a man of 19 for it is too difficult matter to identify a person one month after death. Think it would have been hard to identify that body. Think when the coffin was opened it had a sheet around it, a pair of trousers and boots on. Did not attempt to take the trousers off. The shape of the teeth conformed somewhat to the shape of the head and face.

By the crown: At the time of the autopsy, was shown a photograph by Mr. James Smith. Looked at it and thought I could see a likeness to the corpse, by the outline of the head.

By Mr. Brown: By the outline I mean the general shape of the face. Think the photo was taken "full face."

Mary Bullock, sworn: Wife of Fred Bullock and sister-in-law of the accused. In April last was occupying the same house as E. K. Bullock. Remember my brother-in-law coming to visit us. It was at night on a Friday. Everyone had gone to bed. First heard the dogs barking, awoke out of husband, who got up, and went out for three minutes. When he returned my brother-in-law, the accused, was with him. Am sure I heard nothing except the dogs barking. Know Mr. Charles Tait. He visited us the following Sunday. Remember Tait and mother-in-law and myself having a conversation. Bud, my husband and I were alone. When Tait came my mother and myself were alone. Cannot say where Mr. E. K. Bullock was at the time.

The crown wishing to make a statement the jury were removed from the court room.

Court adjourned to 2 o'clock.

..FOR SALE..</

THE KING VS. BULLOCK.

(Continued from page 5.)

Mary Bullock, continued: Was just about going to sleep when I heard the dogs barking. Had two dogs. Lots of times they bark at night. Generally call my husband to get up. Was afraid the coyotes were about. The dogs did not bark more than they usually did. When Bud came we all got up except Mr. Bullock. While Bud was there he gave presents of \$30 to my mother-in-law, and \$5 to me, all in paper money. Gave a comb. Think he had the comb when he came. Bud said he had a musical instrument and he would send it out. Saw some money beside what he gave to us. It was in gold. On the Saturday morning he rose at the usual time. He was reading a good part of the day, but he was in and out of the house during the day. The accused, in conversation with my mother-in-law, said he had come from Wyoming. Said he came from Ponoka part of the way with the mail and had walked part of the way. That a man, who was going on further to some lake, came with him. Did not ask what day he had come to Ponoka. When prisoner was not in the house did not notice where he went. He had no baggage. Know the boy came to the house with a cap, which he said he had found. I heard from my father-in-law that a body had been found. Know that Tait, Bud and my husband went off shooting together.

Cross examined by H. H. Robertson: There is a trap door to get upstairs. We get up by a step ladder. It is not there permanently. If anyone upstairs wanted to come down, they would have to call for some one to bring the ladder, as the trap was right over the stove. Saw a number of men at the bluff at the time of the inquest. I knew the bluff where the body was found. I pointed out the spot to the parties when they arrived. Could see the bluff from the east window. Could not see the men in the bluff. Do not think the leaves were out at the time of Bud's visit. The garden is west of the house. Could see the whole of the field where the ploughing was going on. The dogs are collies. When Fred went out the barking seemed to be behind the house. The dogs would bark at anyone even at Mr. Bullock, if he was coming home at night. Suppose we went to bed about 8 o'clock, cannot remember exactly. The night Bud arrived did not notice anything wrong with his appearance. While Bud was with us we rose first and got breakfast then he got up, he came down by the ladder. Am a light sleeper. Saw Bud leave with Mr. Bullock on the Monday morning. The \$30 he gave to my mother-in-law was, I think, money he owed Mr. Bullock. While Bud was with us there was nothing in his manner to attract attention.

By the crown: Bud said he had a notion to go to British Columbia.

Mrs. Melinda Bullock, sworn: Am wife of E. K. Bullock and mother of the accused. Was living at Asker last April. Remember my son Bud came home on the Monday morning. Said he came with the mail driver. Said he came from Wyoming. Came to Ponoka, from there rode part of the way with the mail driver and part of the way on foot. Said a man came with him. Did not inquire about what became of the man as it was a common occurrence. It was after we had gone to bed. Did not hear any noise further than the barking of the dogs. My son Fred went out. Did not expect Bud. Am familiar with his handwriting. He did not write often. Was negligent in that respect. Know a place called Aspen in Wyoming.

(Letter for identification produced.)

Am not prepared to say that is my son's writing. think it looks something like it. The Saturday after the arrival of Bud my husband and Fred were ploughing, and part of the time were in the house. We were in and out all the day. Every time Bud would go out the little girl would follow him. While he was there gave me \$10 and \$30 to his father. Gave his father a coat and pants. Gave me the comb he had in his vest pocket. He gave Fred's wife some money. Saw the money in his possession. He sent the zither out. His father brought it out. My son said he had it and would send it out for the little girl. The comb exhibited looks very much like the one he gave me. The musical instrument looks very much like the one he sent. Remember Mr. Charles Tait being there.

Cross examined by H. H. Robertson: When Mr. Bullock returned from Ponoka he brought the zither, and a sample case, which had been lent to my son a year ago. Bud never made a long stay when he visited home.

Mr. E. K. Bullock, sworn: Am father of the accused. He is thirty-one years of age. Has worked out since he was 21. Lived for 4 or 5 years in Wood river. Last saw him in Havens, Nebraska in the last week of July, 1900. He then went to Alliance, Neb. In winter my son was in Wyoming. Sent him an overcoat to Aspen. I arrived at Ponoka March 4th, 1901. Had letters from my son from time to time. Would recognize his handwriting. The exhibit is not in his regular hand, though the formation of the letter appears to be similar. The next exhibit is more like his writing and should say it is in the handwriting of the accused.

(Ponoka Hotel register page exhibited.)

If Bud signed the register he wrote

both the names, if I signed it I wrote both, but I am under the impression I registered myself.

The other hotel registers, already exhibited to previous witnesses, shown to Mr. Bullock, who admitted that the name of C. B. Bullock entered thereon, resembled the handwriting of his son.

Was outwardly on good terms with Tait. Had been at the place where we are living, some three or four weeks before my son arrived. I did not get up when he came. Fred jumping out of bed, woke me up. The next day we were ploughing. Bud came to us in the field. When he left the field did not watch to see where he went. Did not think there was anything to watch for. Know that my son gave my wife \$20 for me, \$10 for herself and \$5 to my sister-in-law. Did not see any other money in my son's possession. Was not away from home on the Sunday. The money was in three ten dollar bills. I reported to Mr. Phillips the finding of the body and took steps to report to the police. Got the musical instrument at Ponoka. Tait came to the house about 10 o'clock he had dinner there, they then went out. I had asked Bud to stay a while. Think Fred also asked him to stay. He said he wanted to get back. Said he had not made up his mind whether he would go to British Columbia or go back to Wyoming. Said he had come to visit. He made sport of us for leaving a settled country and going to wild country. Do not remember if it was his intention to go away by train when we left home for Ponoka. Drove in at Lyon's place to return a sack of barley. I introduced my son to Lyons. Think we got to Ponoka at 10:20. He did not go by the train, from the north, that day. He had baggage there, but do not know if it was at the hotel or at the depot. The valises were like the exhibit. One of them was one I had lent to my son at Havens. I went with him to buy a valise. Saw it, it was smaller than the one he gave me. Went with my son to Alga's store to get the musical instrument. I introduced my son to Alga. Do not remember if my son paid for the dinner at Ponoka or if I paid for it. There was a spade among the implements on my farm. When Bud came in the house said to his mother, he was hungry. Said a man had come out with him. That they had walked a part of the way and ridden a part of the way.

Cross examined by H. H. Robertson: My son said he had walked, with another man, most of the way from Ponoka; the mail overtook them and they rode off and on. When Bud came in said "mother I am hungry." Tait lives 4 or 5 miles from my place, south-west of us. That was Tait's first visit to us. Have five boys besides the accused. Blanchard and Harry left the Monday before Bud arrived. They made up their minds to leave on the Saturday or Sunday and left on the Monday morning. They did not know where they were going. I was at the inquest. Saw the body. The body was that of a man in the prime of life, was 5 feet 10-12 inches from actual measurement. Saw him measured. Thought he would weigh from 185 to 190 lbs. He was a heavy muscular man, what would be called a fine figure. Should judge he was about 30 years of age. Saw the bullet wound and a bruise on the head, which might have been caused by a fall. Can see the bluff, where the body was found, from the east window of my house. We were ploughing the wheat plot. While I was working there did not see the accused go, at any time, to the bluff. Have examined the grave, there was no roots near it. The garden is 100 yards west of the house. At the time Bud visited us we had a part of the garden made. The spade was usually in the garden. The spade is a common iron spade with blade 7 inches wide, bent but not broken. Do not think the spade was sharp enough to make an ordinary clean cut. When we passed Lyon's place we saw a man named Pulver sitting on his horse, he was a stranger to me, Lyons told me his name. Both Lyons and Pulver saw us arrive and depart. Bud was not out of my sight. Have some dogs. They make a great noise.

Bud gave me a coat and trousers when he was going away. I wore the clothes at the preliminary and have them on now. I found an axe, a little over 200 yards from the fence, and sent Ray after it. The head of the axe had been broken and riveted. There were some letters on the handle. It was about 60 steps from the clump of timber.

By the crown: Found the axe on the 22nd April, and two or three weeks later sent Ray for it. It was not at the house while Bud was home.

Question by Mr. McDonald: If you were told that a belt 32 inches came off a man of the size you describe what would you say?

Answer: Have seen men with large

shoulders and chest with small waists. Adjourned until Monday 10 o'clock. Affidavit of Leonard P. Algar taken Jan. 6th, 1902, at Evanston, Wyoming, before J. R. Arnold, a commissioner by writ of this court.

Mr. Brown objected. It was in evidence of a matter about money given by a customer of a certain name.

Judge: You might state you objection.

Mr. Pown, L. W. Stainton. The objection is that Mr. Algar had no means of identifying this person.

Objection over-ruled.

The crown: A receipt for money was shown.

Deposition of Harry Ray Todd taken before a commissioner.

Objected to by Mr. Brown on the grounds that one of the statements regarding the clothing secured at the laundry should not be admitted as evidence. The deponent having made the entry of name of owner of the clothes himself, and the linen having been received by express.

Here a discussion, as to legal points, took place between the prosecution and the defence.

Mr. MacDonald now read the commission. Statements were made by Harry Ray Todd, owner of the Ogden steam laundry as to the manner of marking and identifying the linen. It was explained that the articles received were marked with a metal clasp and by inserting a slip of linen, bearing the initials of the owner. The portions of clothing bearing these marks show, by the laundry register, to have belonged to L. W. Stainton. The last time laundry was received it came from Aspen on April 4th, and was forwarded by Tyrrell. The marks on the stockings were made by myself and were intended to represent the name of Stainton.

The case is still in progress and will probably close on Wednesday.

SPRING GROVE.

A very enjoyable social and musical evening under the auspices of the Presbyterian Sabbath school was held in a house belonging to Mr. Brax, (kindly lent for the occasion) on the evening of Thursday, 13th inst., about 80 being present. Mr. MacLennan presiding. A long and varied programme of music, recitations, and drills was carried through very successfully, the bulk of the programme being undertaken by the young people themselves. Where all acquired themselves so well invidious distinction is unnecessary. The credit for the success of the gathering is largely due to Mr. MacPherson, who superintended the "commissariat" department and to Miss P. Mackay, who arranged such an attractive programme and presided at the organ. Mr. Hill kindly gave the use of his handsome organ. The following is the programme:

Opening hymn, "To the Work." Chorus, "Jack Frost," scholars.

Trio, "The Junior Reapers," Misses T. C. and C. Mackay.

Instrumental music, Mr. Jaquish. Recitation, "My Country Girl," Irwin Weidenhammer.

Quartette, "Mary and Martha," Messrs. B. and F. Mackay, Briston and MacLennan.

Recitation, "The Drowning Singer," Miss Clara Oppertshausen.

Chorus, "See the Storm is Falling Fast," scholars.

Recitation, "At the Setting of the Sun," Miss Ida Schumm.

Solo, "Farewell," Miss B. Mackay.

Recitation, "Do a Kindness," Miss Annie Maenal.

Selection (in uniform) "The Stony Plain Bunting Band," by 16 boys.

Quartette, "Drifting Away," Misses Mackay, Messrs. Bristo.

Recitation, "A Sermon," Irwin Weidenhammer.

Quartette, (German) Mr. and Mrs. Weidenhammer, Mr. and Mrs. Schumm.

Instrumental selection, Mr. Jaquish. Duet, "Sweet Summer," Misses Sutherland and Oppertshausen.

Drill, (with wands, Red, White and Blue), Misses Mackay.

Recitation, "The Donation Party," Mr. Empey.

Solo, "Poor Little Joe," Wm. Empey.

Recitation, "A Morning's Work," Miss Katie McKinlay.

Chorus, "The Maple Leaf," scholars.

Recitation, "The Photographer," George Weidenhammer.

Selection, (whistle and organ), Misses Mackay.

Recitation, "Whispering Bill," Mr. Empey.

Quartette, "I Ain't Got Worry Yet," Misses Mackay, Messrs. Bristo and MacLennan.

Closing hymn, "God be with you till we meet again."

John McKinlay moved a hearty vote of thanks to all who helped to make the gathering a success.

INCUBATOR.

Those who are interested in rearing chickens and rearing them by natural incubation, which system will produce the largest per cent of chicks to the hatch, should not fail to see the Hen Incubator now on exhibition at Clutton Bros. meat market, Edmonton, Alta., which was invented by Arthur McCusker in 1899 and improved in 1901.

29-2f.

much—and that in every house where there is a woman or girl, a few pieces of these goods could be used to great advantage. Every mother who has to provide dresses for girls, large or small, should see these goods, and don't forget the bargains in Boots and other lines. THE HUDSON'S BAY STORES have no room for old stock.

The Hudson's Bay Stores yesterday decided that every piece of Dress Goods that is not absolutely up-to-date must be cleared out at once, as we are determined that nothing but fresh, new, fashionable goods shall be offered during the coming season.

As a result, 71 pieces, about 2000 yards in all, have been laid out on our bargain counter to be sold at prices which would tempt a miser. There is nothing in the lot that was formerly sold at less than 25 cents and there are many which were sold at 50, 60, 70c and \$1 a yard. The lot is now going at 15, 20, 25 and 30c.

We don't claim that these are up-to-date, fashionable goods; we tell you plainly that they are not. But we do say most emphatically that they are worth a great deal more than we are asking for them—in many cases two or three times as much—and that in every house where there is a woman or girl, a few pieces of these goods could be used to great advantage. Every mother who has to provide dresses for girls, large or small, should see these goods, and don't forget the bargains in Boots and other lines. THE HUDSON'S BAY STORES have no room for old stock.

EDMONTON'S CASH STORE.

Having Just Received Our
